| The MAILING DATE of this communication appears on the cover sheet with the correspondence address P riod for Reply  |                                    |   |           |  |  |  |  |
| A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.  - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.  - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.  - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.  - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).  - Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b). |                                    |   |           |  |  |  |  |

Application/Control Number: 10/036,957 Page 2

Art Unit: 2827

### **DETAILED ACTION**

#### Information Disclosure Statement

1. The information disclosure statements (IDS) filed on 03/28/02, 09/09/02, 12/10/02, and 06/02/03 have been considered by the examiner.

#### Oath/Declaration

2. The declaration filed 12/20/01 is acceptable.

## Specification

3. The disclosure is objected to because of the following informalities:

Page 2, line 10, page 26, line 16, page 30, line 31, applicant should provide information's of application serial numbers.

Appropriate correction is required.

## **Double Patenting**

4. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970);and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Art Unit: 2827

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1-37 are rejected under the judicially created doctrine of obviousnesstype double patenting as being unpatentable over claims 1-27 of U.S. Patent No. 6,556,455. Although the conflicting claims are not identical, they are not patentably distinct from each other because the limitation of "a plurality of z-axis compliant conductors" of the application 10/036,957 is the same terminology or equivalent to the limitation of "a plurality of z-axis compressible conductors" of U. S. Patent 6,556,455.

## Allowable Subject Matter

5. Claims 1-37 are allowed.

The following is an examiner's statement of reasons for allowance:

The references cited do not teach or render obvious an apparatus for providing power to power dissipating device comprising: a plurality of z-axis compliant conductors disposed at least partially between first and second circuit board contacts of first and second circuit boards respectively; and

wherein the plurality of z-axis compliant conductors includes a first set of z-axis compliant conductors disposed in contact with and between the first set of first circuit board contacts and the first set of second circuit board contacts and a second set of zaxis compliant conductors disposed in contact with and between the second set of first circuit board contacts and the second set of second circuit board contacts, and

Art Unit: 2827

wherein the first set of first circuit board contacts, the first set of z-axis compliant conductors, and the first set of second circuit board contacts define a plurality of first paths from the first circuit board to the second circuit board and wherein the second set of circuit board contacts, the second set of z-axis compliant conductors, and the second set of second circuit board contacts define a plurality of second paths from the first circuit board to the second circuit board.

There is no suggestion to modify the references to include these limitations as shown in claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

#### Conclusion

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tuan T Dinh whose telephone number is 703-306-5856. The examiner can normally be reached on M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kammie Cuneo can be reached on 703-308-1233. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.

Team DV

Art Unit: 2827

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-308-0658.
